## Your World Will Never Be the Same

RM Education is a worldwide leader in developing outstanding technology tools specifically for the K-12 classroom to engage students, inspire learning and provide teachers and administrators the tools they need to support student learning. Because our entire focus is on the K-12 market, we are passionate about delivering what matters for administrators, educators and students to achieve success.

RM now introduces the first touch-based handheld tablet designed for K-12 that runs on Windows. The RM Slate is a revolutionary tablet that uses Windows 7 so you can run Microsoft Office and most other applications written for personal computers without the need for additional technology training. It is light (2 lbs.) and compact (1/2" thick), but with a large screen (over 11"). With the multi-touch screen, pen stylus, and handwriting recognition, it is easy for users to input and manipulate data, notes, ideas and more. The RM Slate combines the flexibility of a handheld pad, the power of a laptop computer, and an attractive price for any school budget to help districts reach their goal of one computing device for every child.

The RM Slate makes it easy, and fun, to:

- **Surf** the web, using Internet Explorer, Chrome, Firefox, or any other common browser
- **Connect** with students, parents and colleagues using Microsoft Outlook
- **Express** your ideas with Word, PowerPoint, Excel or any other program that runs on Windows 7
- **Encourage** anywhere, anytime learning with wireless connectivity
- **Share** your thoughts with the built-in webcam, mic and Skype
- **Shoot** your own photos and videos in HD
- **Edit and view** your images and share them with others
- **Present** videos on a TV or large monitor using the HDMI jack
- **Read** an eBook or watch a movie
- **Record and listen** to your favorite music

The RM Slate is available with essential classroom software:

- **RM Easiteach<sup>TM</sup> Next Generation**, the award-winning application that helps teachers create and deliver engaging multi-modal activities and lessons
- **RM Podium 2.0**, the podcasting solution designed for education allows students to display and extend their creativity using audio AND video as a means of expression

Other options include:

- Docking Station
- Keyboard
- Case
- Stylus
- Extended Warranty

### Why the RM Slate?

The RM Slate offers educators features that other leading pads do not, including:

- **Windows 7** – Utilize any application that you would run on your Windows computer.
- **Flash** – Enjoy rich media experiences and high-quality videos developed in Adobe Flash
- **Peripherals** – Connect to peripherals using the 2 USB and HDMI ports
- **Speed** – 64-bit CPU and Intel N450 processor make the RM Slate faster than the leading pad
- **Memory** – Do and save more with the SD Memory Card Expansion Slot
- **Video** – Capture videos with the built-in 1.3 megapixel camera
- **Durability** – Rugged construction designed for the rigors of the K-12 classroom
- **Options** – Extend the convenience with extras including: docking station, stylus, USB keyboard, and case
- **Warranty** – 1 year
